DIARY NOTES

25X1A

ADD/A (Colonel White)

20 May 1952

25X1A9a

1. I talked to Ed Saunders about his participation in the Covert Coordination Committee and he assured me that he had turned these duties over to Mr. [REDACTED]. I also suggested that he turn his duties in connection with the Credit Union over to someone else; however, he assured me that since [REDACTED] had taken over this function it required his participation in a meeting only about once a month and he was not spending too much time at it.

2. Asked Dr. Tietjen to provide Mr. Wolf with a copy of [REDACTED] survey report on his trip to Europe so that Mr. Wolf could read it before his departure.

3. I asked George Maloon about the accuracy of personnel statistics and pointed out that O&M had failed to incorporate some changes in last month's report. I emphasized that I would like to have these deficiencies corrected in the first report which Personnel puts out.

4. I asked George Maloon to look into the secretarial situation in the Commercial Division, do what he could about it, and to advise me of the results.

Security Information

8. Received Jim Garrison's paper relating to the [REDACTED] which we hope to obtain through GSA. The paper was not ready for presentation to DD/A nor to the Project Review Committee if that proves to be necessary. I called a crash meeting of [REDACTED] and his man who went to [REDACTED] to look at this property and directed that they expedite the necessary work with GSA, find out how much this is going to cost, if anything, get Cover Division and I&S currencies, and advise me as early as possible of the outcome. Our present agreement with GSA provides that we will definitely let them know about this by 25 May. I instructed [REDACTED] that if it appeared impossible to complete all arrangements by this time to insure that this date was postponed for another week to ten days. I can't tell from papers which I have seen so far whether we will have to reimburse GSA or whether this will need to go to the Project Review Committee. In any case, I have instructed John that our negotiations with GSA must be in writing.

9. [REDACTED] reports that the editor of the [REDACTED] newspaper has requested information on the property in which we were interested in connection with [REDACTED]. This has been turned over to [REDACTED] who will handle the situation.
